

AFRICAN SOLUTION (A.S) – OFFICIAL MANIFESTO

Theme: Real Solutions for REAL People

PREAMBLE

South Africa does not lack laws, it lacks solutions. African Solution was formed to abolish the tender system that breeds corruption and to put the people back at the center of government. This manifesto is our contract with you.

OUR 13 POINTS PLAN TO FIX SOUTH AFRICA

1. Free Early Childhood Development

Free Pre-school and crèches for all children whose parents earn under R10,000 per month and for all unemployed parents. No Childs of the peasants shall left behind.

2. Free DSTV

Pushing the Government to pay dstv for disadvantage family.

3. End Exploitative Temporary Employment

We will end labour broking abuse. Any temporary must be permanently employed after six (6) months' probation. Equal work for equal pay.

4. Abolish The Tender System

We will abolish tenders. Government must build its own capacity to deliver services, buy directly from factories, and employ its own people. This will kill corruption and inflate prices.

5. Permanent EPWP Jobs

The Expanded Public Works Programme (EPWP) must be made permanent with full benefits, UIF, and a living wage. Stop using our people for cheap labour.

6. 30% Community Benefit

We will claim 30% of all projects for communities. Any mine, mall, or factory in an area must give 30% ownership, jobs, and business to that local community.

7. Solution For Electricity Crisis

We will implement a real solution load-shedding – including community solar projects, fixing municipal power stations, and free basic electricity increased to cover the poor.

8. Basic Services for All

Government must provide water, electricity, and RDP's houses to all who need them-with dignity. No more bucket toilets, no more dry taps.

9. Rural Roads and Safe Transport

We will fix all rural roads and allow taxis to operate safely and profitably to deliver our people safely to work and school, with proper taxi ranks and subsidies.

10. Solution for GBV and Femicide

A zero – tolerance solution for Gender-Based Violence and Femicide. Special GBV courts, safe houses in every municipality, and victim support.

11. Change the Constitution

We will review and amend the Constitution where it protects property more than it protects people. The law must serve the people, not the elite.

12. Free Quality Primary and Secondary Education

Strengthen primary and secondary education with proper infrastructure, and tablets.

13. Safety in Schools

We will provide security in all primary and secondary schools for the protection of learners, teachers and other workers. No learning without safety.

OUR PROMISE

We are not here to promise-we are here to SOLVE. African Solution is the solution.

VOTE AFRICAN SOLUTION – VOTE FOR SOLUTIONS.
