

Manifesto

A coalition of activists, academics, entrepreneurs, industrialists, economists, and religious leaders supports the Alliance of Change, united by a shared commitment to community development. Established to shift power away from traditional politicians and empower leaders with a vision and strategy to restore our people's dignity through job and business creation, good governance, and economic growth.

Alliance of Change pledges the following:

1. Economic Revival: Our scientifically proven model aims to bring economic prosperity to every part of our society. We have identified more than 22 inactive corridors in Ekurhuleni that could create more than 90,000 jobs and business opportunities.
2. Supporting Local Businesses: We will ensure that local businesses automatically qualify for a R100,000 grant for three years to encourage growth and sustainability, thereby making local entrepreneurs feel valued as vital contributors to our progress.
4. We will employ 10,000 metro police officers over the next five years and conduct lifestyle audits of all law-enforcement and licensing officials.
5. Reforming the Public Sector: Plans to remove 80% of Heads of Departments to create a more dynamic and efficient administration.
6. Education and Child Development: We will provide substantial support to early childhood development centres, school transport operators, Educators, Tutors, and non-governmental organisations.
7. Youth Empowerment: We are dedicated to shifting power away from traditional politicians, creating a platform for young, innovative thinkers and leaders to take charge of their communities and the future of our nation.

8. Reviving the Working Class: Initiatives will be put in place to rejuvenate the working class and enhance their prospects.

The Alliance of Change is committed to ushering in a new era of governance that prioritises our citizens' well-being, fosters economic growth, and promotes a just society. With your support, we can uplift our communities, empower our youth, and create a future full of promise and prosperity.

Vote Alliance of Change on 4 November 2026.
