

# DAWI OFFICIAL ELECTIONS MANIFESTO

*A Blueprint for the People: Reclaiming Our Soil, Our Safety, and Our Wealth*

## **1. Radical Land Redistribution**

True dignity begins with the soil. DAWI rejects empty bureaucratic promises and state-centric bottlenecks. We pledge aggressive, legally sound local land redistribution to hand real ownership back to farmworkers, historical families, and local cooperatives. We will replace failed equity structures with direct land deeds, giving our people the literal foundation to build generational wealth and local agricultural independence.

## **2. Real Economic Empowerment (BBBEE Rethink)**

We stand for economic empowerment that impacts the working class, not just a handful of politically connected elites. DAWI will restructure Broad-Based Black Economic Empowerment (BBBEE) frameworks at a local level to prioritize grass-roots community trusts, youth-owned digital enterprises, and localized procurement. Funding and scorecards will reward companies that build real factories, train local workers, and buy from local entrepreneurs.

## **3. Dignified Housing & Property Ownership**

Housing is a fundamental right, not a tool for political patronage. DAWI will end the cycle of institutional neglect that leaves our families as backyard dwellers. We pledge rapid land release for serviced stands, aggressive funding for high-quality social housing developments, and the immediate eradication of housing registry corruption. Every resident deserves a title deed and a safe structure to call home.

## **4. Uncompromising Basic Service Delivery**

Our municipal focus belongs on our streets, not on distant elite hubs. DAWI guarantees equal, dignified distribution of basic utilities. We will upgrade aging water infrastructure to prevent harvest-season shortages, overhaul waste management systems to eliminate hazardous hazards like underground landfill fires, and ensure transparent municipal billing that works for the poor, not against them.

## **5. Absolute Safety and Total War on GBV**

A community cannot prosper if its vulnerable walk in fear. DAWI declares an uncompromising war against Gender-Based Violence (GBV). We will enforce rigorous, localized oversight on underperforming police stations, establish fully equipped rapid-response centers for survivors, and demand the immediate removal of toxic leadership within local law enforcement. We stand as an unmovable wall against abusers.

**STAND AGAINST GREED. VOTE FOR TRUE SERVANTS. VOTE DAWI.**
