GAZANKULU MANIFESTO FOR LGE 2026

MESSAGE FROM THE GAZANKULU PARTY LEADER

We face a moment in history where we must choose between the path of poor service delivery, unemployment, crime and substance abuse or the better way of Gazankulu.

We choose the path of re-instating Gazankulu in order to create jobs and fight poverty and development

The local government elections take place where more than 500 Political Parties will be contesting the local elections, the highest contested elections since our first democratic elections in 1994.

Government has done nothing to improve our lives, our villages, Locations, infrastructures, Government SOEs and our economy within Mpumalanga, Bushbuckridge and all areas across the country, with the Madlanga Commission it has proved that some of our Municipalities and some police are captured under the current Government we need to save our Municipality by voting Gazankulu, We will work hard to ensure our Villages, Locations

, Towns and rural area look Great again like before the disbandment of Gazankulu Government in 1994.

We need to resuscitate our water infrastructures, roads and our Municipalities and build new water reticulations plants, Clinics, Schools, libraries and Sports Grounds in order to fight poverty through education, art and Sports.

GNP

As GAZANKULU, we have notice that progress has not been sufficient. Many municipalities have failed our people under the current Government. There is corruption, waste full expenditures, over-spending and poor service delivery that lead to our communities ran out of clean water bad roads conditions and collapse Municipalities , We will get rid of corrupt Government officials and self-serving Government employees who want to benefit when our people has no water.

In several communities water is a biggest challenges some areas has never had clean water in the 10 years.

We will work hard to fix these problems.

Since the advent of democracy, the government has never made great progress in meeting people's basic needs and improving the provision of free education, health care and other services like electricity and water. We will have to work hard to transform local government and build better communities ever.

Let us work together to put municipalities on a better footing and develop better communities.

Let us rebuild and renew effective local government that puts people first. we can build a sustainable, green and resilient future where we use our natural resources wisely such as water.

This election is a chance to return local government to our People Vote GAZANKULU .

GAZANKULU
NATIONAL PARTY

LET'S BUILD BETTER COMMUNITIES WE WILL RETURN LOCAL GOVERNMENT TO GAZANKULU STRATEGY

GAZANKULU Will:

- Will have free basic services, including free education, water and electricity , available to all people more special poor people .
- reduce electricity price, and taking over electricity from Eskom in order reduce electricity price and replace Transformers within 24 hours.
- Introduced the Municipal Student Finance Scheme to provide financial aid to higher education students
- Build School of excellent for sports art and culture
- Build water reticulations plants and clean water
- Build tar roads in all roads that is more than 2km
- We will Build 3 bedroom RDP house to all families who don't have inadequate house
- Invites investors to invest in our land to build Factory such as Cement companies, Goldi and all Business that will create job opportunities within our Peoples.
- Provide agricultural support, and assisted in small businesses and cooperatives.
- Ensure all People working on the local Business earn More than R5500 a month and are ensured by UIF.

- Ensure every House hold there is a family member who is employed in order to end poverty
- Many municipalities are not functioning well, and many councillors are not focused on serving the communities that elected them.
- Electricity supply is unstable, and many communities are affected by load reductions more special rural areas.
- There is inadequate maintenance and replacement of infrastructure.
- Oversight is weak, accountability is poor and there are no consequences for people who fail to perform.
- Corruption, tender-rigging, nepotism and state capture continue to haunt many municipalities.

Our promise to you is that we will do to better than them to serve our people in every municipality, deliver better services within our communities:

Water and Roads

- Increase the number of boreholes and water tanks in communities who has no water Streams to build water reticulations Plants.
- Rehabilitate water pump stations and increase water plants capacity
- Fix roads, potholes, and broken water pipes resuscitate old asbestos pipes

GNP

- Increase the number of labour and shift workers to maintain water, sanitation, and to create Jobs.
- Ensure all households receive the free water allocations they are entitled to.
- Build tar roads in all gravel roads where communities, taxis Travel/used.

Electricity

- No More load reductions, we will engage eskom in taking over our local electricity supply in order to be accountable in replacing transformers and new installations.
- Solar Gysers will be given to all house hold in order to save electricity
- Gas stoves will be given to all disadvantage families in order to save electricity
- Ensure all poor households receive the amount of free electricity allocations that they are entitled to.

Land and Housing

- we will avail land for business investors in order to build industrial farms
- Land reform and rural development by building new Locations within our Municipality and allocate it to Youth and all adults who has no houses.
- Ensure all house holds has tittle deed, we will engage all the kings in order to obtain permanent tittle deed instead of PTOs and Permit in order to allow people to sell their hoses through the banks and agents.

- Ensure communities are located on well-situated land where there is water and electricity.

Choose Gazankulu to run municipalities

- Ensuring that the municipal staff that are appointed have the necessary competence, experience, and support. • Thoroughly interview
- Subjecting mayors and senior managers to lifestyle audits to limit the scope for corruption.
- Pr Councillors and councillors to sign performance agreements with agreed targets against which they will be measured.
- Create jobs and drive economic development.
- Working with all levels of government and Business companies to grow the economy, increase jobs, and reduce poverty, we will:
- We will ensure all government contractors are permanent
- Create permanent general works to fix roads and clean our Towns
- End all hired labour within our Municipalities by absorbing all employees.

- Government to permanently employ their own Securities ,Truck Drivers, Grader Operator, TLB

Operators and Buy their own Trucks ,Water Tanks Graders, Tlbs , etc,r in order to create jobs.

- Install Wi-Fi hotspots in communities at libraries, hospitals, clinics, schools and through the increasing rollout of network infrastructure.
- Establish business activities, particularly manufacturing and supply chains by Providing Land to investors to build ware houses and Manufacturing
- Develop farm auctions to sell life stock for local farmers
- Every Gazankulu Councillor or Pr councillor to donate school uniforms worth R400 to one child within their ward or municipality in each and every month for 5 years until their end of term, which will benefit 72 Kids per elected Councillor.
- Every Gazankulu councillor to donate Food Parcels worth R800.00 to 1 family/house hold for 5 years until end of their Office term, which will benefit 72 families per councillor.

Food Security

- Gazankulu government will continue to ensure school feeding schemes and soup kitchens deliver as they should.
- All Gazankulu Councillors must donate food parcels worth R800

- Local Municipality should support local farmers to grow local Market Link food production to support small-scale farmers and local procurement.
- Ensure support for community and co-operative food gardens, making municipal land available for such projects, to support schools and support programmes for the impoverished.
- Integrate community food garden projects into the Community Work Programme.

Fight corruption and state capture

To make sure public money is spent on the services needed, we will:

- Deal decisively and immediately with corruption, mismanagement, waste, and under-performance.
- Ensure Gazankulu municipalities are run by ethical leaders, managers, and workers.
- Remove from office those who fail to do what they are paid to do.
 - All recruitment and tenders to be advertised in local radios and news papers
- No Contract should be awarded tender in a period of 2 years after Completing a work, waiting period is 2 years to avoid tender Mafias from capturing the state
- Reduce out sourcing to create permanent job that can be better performed by municipalities.
- End the practice of labour broking in municipalities and support the creation of sustainable jobs.
- Act against officials conducting business with municipalities and against those implicated in maladministration.

- No contract should be paid in full without completion a job
- Enforce life style audit to all suspected municipal workers, councillors and Mayors

Make municipalities financially viable

- Strengthen measures to generate revenue and revenue collection from Local Foreigns Businesses.
- Take over eskom electricity supply to generate revenue for Municipality
- Strengthen the municipal finance recovery service function and simplify financial recovery plans in municipalities.
- Find a long-term solution to the restructuring of historical uncollectable debts and write-offs that have been on municipal debt books.
- Undertake effective campaigns to deal with the culture of non-payment for services, but ensure we are delivering the necessary free basic services

Building safer communities and fighting crime, drugs, and alcohol abuse

Taking care of the most vulnerable and making communities safer, making sure that we unite our communities, grow, and develop together and leave no-one behind

- Levels of violence remain too high in our society and people do not feel safe.
- Deal urgently with the unacceptable levels of drug and alcohol abuse in many communities, especially among the youth.
- Put in more lighting to make townships and villages areas safer.
- Rebuild sports facilities and new stadiums
- Revitalise arts and culture facilities and create opportunities in these sectors, especially for women and the youth.
- Increase Visibility of police forums and given resources and stipend
- The police must patrol and work in partnership with community structures to make communities and public spaces safer.
- Re-build and renovate police station

Jobs, education, training, and opportunities for all people

- We must create more jobs for all people educated and uneducated
- We will introduced internships, learnerships, bursaries within municipality
- Skills must be unceasingly upgraded, including skills aligned to job
- opportunities and sustainable economic development
- Sports and cultural centres must be maintained and upgraded for leisure activities.

- Working together to overcome our challenges and build accountable, capable, and effective local government ,together, in partnership, we shall rededicate our energy to forge social cohesion, build strong institutions of participatory democracy, revitalise our economy and build a strong, united, non-sexist, non-racial, and prosperous South Africa. In the democratic era,
- The Gazankulu will be unwavering in its commitment to improve the lives of the people of our country, especially the poor.

OUR PLEDGE

pledge to do better than all Parties

A Pledge to continue walk on the foot steps of the late HWE Ntsanwisi
